MARKING GUIDELINE
(EXEMPLAR)**

MARKS: 150

This marking guideline consists of 20 pages.

1. SOURCE BASED QUESTIONS

1.1 The following cognitive levels were used to develop source-based questions:

COGNITIVE LEVELS	HISTORICAL SKILLS	WEIGHTING OF QUESTIONS
LEVEL 1 (L1)	<ul style="list-style-type: none"> • Extract evidence from sources • Selection and organisation of relevant information from sources • Define historical concepts/terms 	40% (20)
LEVEL 2 (L2)	<ul style="list-style-type: none"> • Interpretation of evidence from sources • Explain information gathered from sources • Analyse evidence from sources 	40% (20)
LEVEL 3 (L3)	<ul style="list-style-type: none"> • Interpret and evaluate evidence from the sources • Engage with sources to determine their usefulness, reliability, bias and limitations • Compare and contrast interpretations and perspectives presented in sources and draw independent conclusions 	20% (10)

1.2 The following information indicates how the source-based questions are assessed:

- | |
|--|
| <ul style="list-style-type: none"> • In the marking of source-based questions, credit needs to be given to any valid and relevant viewpoints, arguments, evidence or examples. • In the allocation of marks, emphasis should be placed on how the requirements of the questions have been addressed. • In the marking guideline, the requirements of the questions (skills that need to be addressed) as well as the level of the questions are indicated in italics. |
|--|

1.3 Assessment procedures for source-based questions

- Use a tick (✓) for each correct answer
- Pay attention to the mark scheme e.g. (2 x 2) translates to two reasons which are given two marks each (✓✓ ✓✓); (1 x 2) translates to one reason and is given two marks (✓✓)
- If a question carries 4 marks then indicate by placing 4 ticks ✓✓✓✓

Paragraph question

Paragraphs are to be assessed globally (holistically). Both the content and structure of the paragraph must be taken into account when awarding a mark. The following steps must be used when assessing a response to a paragraph question:

- Read the paragraph and place a bullet (•) at each point within the text where the candidate has used relevant evidence to address the question.
- Re-read the paragraph to evaluate the extent to which the candidate has been able to use relevant evidence to write a paragraph.
- At the end of the paragraph indicate the ticks (✓) that the candidate has been awarded for the paragraph; as well as the level (1, 2 or 3) as indicated in the holistic rubric and a brief comment e.g.

_____ · _____ · _____
✓✓✓✓

Level 2

Used mostly relevant evidence to write a basic paragraph.

- Count all the ticks for the source-based question and then write the mark on the right hand bottom margin e.g. $\frac{32}{50}$
- Ensure that the total mark is transferred accurately to the front/back cover of the answer script.

2. ESSAY QUESTIONS

2.1 The essay questions require candidates to be able to structure their argument in a logical and coherent manner. They need to select, organise and connect the relevant information so that they are able to present a reasonable sequence of facts or an effective argument to answer the question posed. It is essential that an essay have an introduction, a coherent and balanced body of evidence, and a conclusion.

2.2 Marking of essays questions

- Markers must be aware that the content of the answer will be guided by the textbooks in use at the particular centre.
- Candidates may have any other relevant introduction and/or conclusion than those included in a specific essay marking guideline for a specific essay.
- When assessing open-ended source-based questions, learners should be credited for any other relevant answer.

2.3 Global assessment of the essay

The essay must be assessed holistically (globally). This approach requires the teacher to score the overall product as a whole, without scoring the component parts separately. This approach encourages the learner to offer an individual opinion by using selected factual evidence to support an argument. The learners will not be required to simply regurgitate 'facts' in order to achieve a high mark. This approach discourages learners from preparing 'model' answers and reproducing them without taking into account the specific requirements of the question. Holistic marking of the essay credits learners' opinions supported by evidence. Holistic assessment, unlike content-based marking, does not penalise language inadequacies as the emphasis is on the following:

- The construction of argument
- The appropriate selection of factual evidence to support such argument
- The learner's interpretation of the question

2.4 Assessment procedures of the essay

2.4.1 Keep the synopsis in mind when assessing essays.

2.4.2 During the first reading of the extended writing, ticks need to be awarded for a relevant introduction (indicated by a bullet in memorandum); each of the main points/aspects that is properly contextualised (also indicated by bullets in the memorandum); and a relevant conclusion (indicated by a bullet in the memorandum) e.g. in an answer where there are 5 main points there will be 7 ticks.

2.4.3 The following additional symbols can also be used:

- Introduction, main aspects and conclusion not properly contextualised
- Wrong statement
- Irrelevant statement

- Repetition
- Analysis
- Interpretation

2.5 The matrix

2.5.1 Use of the analytical matrix in the marking of essay.

In the marking of essays, with reference to page 6, the given criteria shown in the matrix should be used. In assessing the extended writing note should be taken of both the content and presentation. At the point of intersection of the content and presentation based on the seven competency levels, a mark should be awarded.

(a) The first reading of an essay will be to determine to what extent the main aspects have been covered and to allocate the **content level** (on the matrix).

C	LEVEL 4	

(b) The second reading of essay will relate to the level (on the matrix) of **presentation**.

C	LEVEL 4	
P	LEVEL 3	

(c) Allocate an overall mark with the use of the matrix.

MARKING MATRIX FOR ESSAY: TOTAL: 50

	LEVEL 7 Very well planned and structured essay. Good synthesis of information. Developed an original, well balanced and independent line of argument with the use of evidence and sustained and defended the argument throughout. Independent conclusion is drawn from evidence to support the line of argument.	LEVEL 6 Very well planned and structured essay. Developed a relevant line of argument. Evidence used to defend the argument. Attempts to draw an independent conclusion from the evidence to support the line of argument.	LEVEL 5 Well planned and structured essay. Attempts to develop a clear argument. Conclusion drawn from the evidence to support the line of argument.	LEVEL 4 Planned and constructed an argument. Evidence used to some extent to support the line of argument. Conclusions reached based on evidence.	LEVEL 3 Shows some evidence of a planned and constructed argument. Attempts to sustain a line of argument. Conclusions not clearly supported by evidence.	LEVEL 2 Attempts to structure an answer. Largely descriptive or some attempt at developing a line of argument. No attempt to draw a conclusion.	LEVEL 1 Little or no attempt to structure the essay.
PRESENTATION →							
CONTENT ↓							
LEVEL 7 Question has been fully answered. Content selection fully relevant to line of argument.	47–50	43–46					
LEVEL 6 Question has been answered. Content selection relevant to a line of argument	43–46	40–42	38–39				
LEVEL 5 Question answered to a great extent. Content adequately covered and relevant.	38–39	36–37	34–35	30–33	28–29		
LEVEL 4 Question recognisable in answer. Some omissions or irrelevant content selection.			30–33	28–29	26–27		
LEVEL 3 Content selection does not relate to the question, but does not answer it, or does not always relate to the question. Omissions in coverage.				26–27	24–25	20–23	
LEVEL 2 Question inadequately addressed. Sparse content.					20–23	18–19	14–17
LEVEL 1 Question inadequately addressed or not at all. Inadequate or irrelevant content.						14–17	0–13

***Guidelines for allocating a mark for Level 1:**

- Question not addressed at all/totally irrelevant content; no attempt to structure the essay = 0
- Question includes basic and generally irrelevant information; no attempt to structure the essay = 1–6
- Question inadequately addressed and vague; little attempt to structure the essay = 7–13

QUESTION 6: SOUTH AFRICAN WAR AND THE UNION – THE NATIVE LAND ACT OF 1913

[Plan and construct an argument based on evidence using analytical and interpretative skills – L1]

SYNOPSIS

Candidates need to critically discuss how the Native Land Act of 1913 affected the lives of the South Africans.

MAIN ASPECTS

Candidates should include the following aspects:

- Introduction: Candidates need to critically discuss the social and economic impacts of the Native Land Act.

ELABORATION

- The government passed the Native Land Act of 1913 as pressure was put by politically powerful white farmers. Before the Land Act was passed many black farmers had become successful sharecroppers .
- They farmed the land and sold the crops they produced
- The introduction of the Land Act had detrimental effects to the sharecroppers
- The Land Act stopped sharecropping
- Sharecroppers were forced to work for the white farmers or went to mines
- Some farmers at first refused to work for the whites and took their livestock and went to the reserves
- They were forced to sell the stock to survive as there was not enough land for the livestock
- The Land Act ended the chances of Africans ever becoming successful commercial farmers in competition with whites
- Socially, the Land act affected the blacks badly
- Blacks were evicted with their livestock
- They wandered around in all types of weather conditions
- The law stated that giving a landless black person a place to stay could cause you to face penalty of 100 pounds or imprisonment
- The land allocated to Africans was not enough
- The reserves were overcrowded and far away from the cities
- The land in the reserves was not suitable for agriculture due to soil erosion
- Conditions in the reserves were very poor with malnutrition and increase of diseases
- The reserves were far away from medical care centres which led to high rate of infant mortality
- They often killed or sold their weakening livestock
- The amount of land allocated to blacks was insufficient
- The reaction to the Land Act, SANNC was the first organisation to fight the Act
- Sol Plaatje and other other SANNC members went to rural areas to investigate the hardships caused by the Land Act
- They witnessed the African people's suffering under the Act
- The members of SANNC called several times for the repealing of the Act but to no avail

- In 1914 SANNC sent a delegation to the Prime Minister, Louis Botha to protest against the Act but that was also unsuccessful
- SANNC travelled to Britain to present their grievances to the British government
- This attempt was unsuccessful as British government refused to intervene
- SANNC was established to fight the discrimination against black South Africans
- The Land Act was the forerunner of the apartheid system, numerous discriminatory laws were passed such as the Urban Areas Act of 1923, to intensify segregation in 1924 the 'civilised labour policy' was passed, the Bantustan policy and the Group Areas Act in the 1950s
- This had a severe negative impact on the majority of the population while it benefitted the white minority
